

Send **All** My Friends to School

Difasi, from Uganda

Meet Difasi. He is nine years old.

Difasi lives in Uganda.

Uganda is a country in Africa.

Difasi has been blind since he was born.

He used to go to school. He stopped because there was no special help for him there.

This is what Difasi says,

“I live with my family. We grow coffee and potatoes. We used to grow bananas but we have less money now.

I would love to go to school. Sometimes I go but I am sent away. I can't pay the school fees.

I want to ride a motorbike and become a doctor.”

Why doesn't Difasi go to school?
